

Jjk chapter 244 is here! The grand wait is over! It's finally time!

After a quick fight between Takaba and kenjaku, Gege has finally returned to the grand fight between Sukuna, Yuji and Higuruma.

To recap what happened so far. Sukuna had just sliced Kashimo into a million's pieces, then Hikari jumped down and trapped uraume in his domain. Suddenly the domain dissipated and Yuji and

Higuruma dropped down onto the battlefield ready to brawl Sukuna and hopefully get revenge for Gojo.

Sadly, this great cliffhanger was followed up with a surprisingly long kenjaku vs Takaba fight, but luckily Gege ended that fight with the return of the fan favourite Yuta okkotsu who killed kenjaku. Now we have returned to the cliffhanger and have seen the fight begin!

The chapter starts with, the shot of Yuji and Higuruma staring down Sukuna. Then it cuts out to the whole hero group planning their attack on sukuna in the event that Gojo was to lose (which obviously happened). They land on the hope of Higuruma's domain expansion. But they worry about how to get sukuna a confirmed death penalty, because of judgeman choosing the crime at random, until Yuji comes up with an idea.

We cut back to the battlefield where sukuna easily dismisses 3 of mei-mei's crows, but they were just a distraction.

Then Higuruma's huge hammer slams down and absorbs a ton of electricity from Sukuna's cursed tool. Yuji runs at him from the other side and starts punching away as Higuruma manages to wrap Sukuna's cursed tool in some kind of insulating wire. Higuruma screams that it's time. And we cut back to Yuji saying his plan, which is that since he never officially got the death penalty, he realises they could call for a third trial on Yuji.

Then it cuts back to Higuruma's domain expansion where the judge says "Yuji Itadori is on trial for mass murder in Shibuya on October 31st." then Higuruma says, "Yuji did not commit the crime, his confession during the last trial was due to a feeling of irrational guilt, the real killer is..." and then the chapter ends.

Overall, this is a 9/10 chapter. I can't wait to see what happens next.

Jjk season 2 episode 19 is a goddamn masterpiece! Well done, animators!

Nobara makes her grand finale in this riveting episode.

The episode begins with Nobara entering the Shibuya barrier, seeing the aftermath of Sukuna's rampage on Mahoraga. The intro "specialz" then plays. But afterward we cut back to the Yuji vs Mahito rematch, with people running through the station only for them to get impaled and thrown by Mahito. They all crash into Yuji who is

knocked back to the other end of the hallway. It seems that one of the humans is ok, but it turns out to be a trick by Mahito who uses it as a distraction to get behind Yuji. But suddenly it cuts back to Nobara in the middle of the street fighting... Mahito?

Nobara makes it onto the roof after dodging Mahito's attacks. She lands a few hits with her nail attacks until she has to dodge tons more of Mahito's swinging attacks, safely landing on the floor with a

double backflip. They keep fighting as we hear Mahito saying to himself that he's only a double and that he can still morph his own shape but can't actually use idle transfiguration. He ends his monologue by thanking Nobara for making wearing her nerves down all by herself. After a bit of taunting, she jumps onto a roof top throwing one of her nails down to the floor and activating strawdoll technique: hairpin to stop Mahito from escaping, as she jumps and slams a nail into his head using strawdoll technique: resonance unknowingly dealing heavy damage to the real Mahito before he can land his critical

blow on Yuji.

Of course, this gives Yuji a chance to start landing critical blow after critical blow on Mahito. Yuji thanks Nobara in his mind. But we cut back to the other mahito beginning to run from Nobara as she gives chase. And then we see the main Mahito distract Yuji and escape him as he follows and the other mahito jumps down into the station, followed shortly after by Nobara. Yuji watches the two mahito's swap places the main one running towards Nobara.

Yuji screams for her to run as he demolishes the clone, but she can't react in time and!

She gets hit with idle transfiguration and we get a long 8-minute flashback of her childhood and see her become friends with a girl named Fumi. Once the flashback is over, we see modern day Fumi wondering how Nobara is doing. After that we get the gut-wrenching chair sequence

and then...

She's dead. The episode ends after that.

Overall, this is a 10/10 episode one of the best in this season, heck, it's probably one of the best episodes of the entire show.

Can't wait to see what happens in the next episode.

Just finished reading the second book in the maze runner series: the scorch trials!

I would give this book a solid 9/10. the scorch is an unforgiving place.

It manages to maintain an ever-present fear of not knowing what could happen next throughout every single page. To be honest, I do think the first book (maze runner) is slightly better. This book does make for a good mystery, but the cast's situation doesn't feel as dire as it should. Here's the official synopsis of the book's plot:

Solving the Maze was supposed to be the end. Thomas was sure that escape from the Maze would mean freedom for him and the Gladers. But WICKED isn't done yet. Phase Two has just begun. The Scorch. There are no rules. There is no help. You either make it or you die. The Gladers have two weeks to cross through the Scorch—the most burned-out section of the world. And WICKED has made sure to adjust the variables and stack the odds against them. Friendships will be tested. Loyalties will be broken. All bets are off. There are others now. Their survival depends on the Gladers' destruction—and they're determined to survive.

I won't say anymore as not to spoil the book because you should just go read it.

I'm definitely making time to go see how
this cast portrays my favourite musical.

What if? Season 2 comes out on the 22nd of December!

Finally! An mcu series to be excited for.

If it's anything like the first season, then it's probably going to be the best mcu release in recent memory. Just like the first season, Season 2 will have nine episodes, each around thirty minutes.

With a few sequels to the first season's episodes, an episode for what if Gamora killed Thanos and a few new ideas like the Christmas special, this season seems to be

amazing. Compared to the rest of the Disney plus content that has released recently.

Loki season 2 may have been very good and enjoyable, but it did suffer from many convoluted and confusing plot points and was constructed a bit poorly. So, this project will be the perfect boost the mcu needs. Let's hope it gets the chance to live up to it's potential.
